

# Windows 10 Solutions from OCG

Explore Windows 10's security technologies, protect your data and devices, and better control both corporate-owned and user-owned devices.

**Why is Oxford Computer Group (OCG) the best partner to help with a Windows 10 deployment? Because nobody knows Identity and Data Access Security better than OCG. We've been designing and deploying solutions for over 15 years.**

Windows 10 is packed full of security and identity protection features, and Oxford Computer Group can help you integrate them with Microsoft's complete identity and security solution stack.

**OCG offers three types of Windows 10 engagements:**

#### ■ Windows 10 Enterprise Pilot

- OCG will help you prepare to deploy Windows 10 into production
- Create an image for deployment
- Application deployment
- Overview of best practices for deployment
- Deployment plan
- Installation, set-up, and use of Microsoft Tools, including Configuration Manager
- Standard package includes one week of onsite work and travel expenses, as well as remote follow-up and support

#### ■ Windows 10 Mobility Proof of Concept

- Explore use cases for device management, including Windows 10 PCs
- Conducted by one of our architects onsite at your location
- Standard project includes one week of onsite work and travel expenses
- Up to two days of remote follow up

#### ■ Windows 10 Enterprise Security Briefing

- Get an overview of the threat landscape
- Learn more about the security components included in Windows 10, including:
  - Windows Defender Advanced Threat Protection
  - Windows Information Protection
  - Windows Hello for Business
- Standard project includes four days of onsite work and travel expenses

**All projects can be tailored to fit your organization's goals and budget.**

**Oxford Computer Group (OCG)** specializes in identity, access, and security technologies. Since 2002 we have worked with more than 800 enterprises worldwide and have won Microsoft's Partner of the Year award seven times.
